Permission to Conduct Acceptance Testing

Date: 04/23/26

Dr. Isa Pab Geen A. Pagud
BAO Director
Economic Enterprise Unit

Dear Dr. Isa Pab Geen A. Pagud,

We hope this message finds you well. As part of our system development process for the project titled "BukSu EEU's Ordering System and Shopping Platform", we are now in the final phase and would like to formally request your permission to conduct a System Acceptance Testing with you as our client.

The purpose of this testing is to verify that the system meets the requirements and functionalities previously discussed and to ensure it is ready for deployment. We are committed to making the process efficient and respectful of your time.

The Acceptance Testing will include:

- A walkthrough of key client-requested features
- Hands-on testing with short task scenarios
- A brief feedback form for your approval or comments

We are available to conduct the session at your preferred time and date, and we anticipate it will take no more than 30 minutes.

We sincerely appreciate your time, input, and continued support in this project. Please let us know if we may proceed with scheduling the session.

Sincerely,

Erica Casiño
BSIT
Bukidnon State University

Project Title: BukSu EEU's Ordering System and Shopping Platform

Client/Department: Dr. Isa Pab Geen A. Pagud

Team Name/Developers: NanoTech Production

Date of Testing: 04/23/26

Client-Focused Acceptance Test Plan

Feature	*Client Task Description*	*Expected Result*	Result(Pass/Fail)	Client Remarks
